Forecast for Tuesday 26 Oct 2021

Weather: Mainly dry overnight but with increasing cloud and wind by dawn. Outbreaks of rain and drizzle initially will spread east by mid-morning. Conditions likely to brighten into the afternoon but it will stay largely overcast with occasional outbreaks of light rain likely and winds strentherning further. Mainly dry at low level during the afternoon and evening, but cloud bases lowering to bring further rain and drizzle overnight.

Chance of cloud free mountain/hill tops above 600m: Low during the morning with widespread low cloud across much of the range in associated with morning rainfall. Chances increasing to 60% during the afternoon as conditions brighten somewhat, with more chance of cloud breaks in the east.

Visibility: Visibility will be poor at times during the morning with frequent rain and drizzle and widespread low cloud above around 400m, but cloud will improve to become generally scattered above 500-600m during the afternoon, giving some better visibility, particularly for the more sheltered eastern side of the Brecon Beacons.

Meteorologist's View

A windy day with some strong gusts during the afternoon, gales possible later in the day and some poor conditions likely at times during the morning in persistent rain and drizzle.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
02:00 on Tue 26 Oct 2021	6.2mm	17.6mm	17.8mm

Forecast for Wednesday 27 Oct 2021

Weather: Another dull, windy day with continued outbreaks of rain for the Brecon Beacons and some poor visibility at times. Drier in the east, and possibly some brighter spells here too.

Maximum wind: Southwesterly winds 25-30mph with gusts 40-45mph.

Chance of cloud free mountain/hill tops above 600m: 60%, more low cloud is likely for the western hills.

Visibility: Occasional outbreaks of rain and areas of low cloud beneath summits will give some poor conditions once again, particularly in the west. Some brighter condition likely into the afternoon however, especially in the more sheltered east.

Temperature: **Valleys:** Plus 15 Celsius.
At 600m: Plus 11 Celsius.
Freezing level: Above all summits.
